Summary

I am highly responsible and goal-oriented, excelling both individually and within a team environment.

With impeccable soft skills, I consistently receive positive feedback and glowing recommendations from previous employers upon request.

My analytical and logical thinking, coupled with meticulous attention to detail, enables me to handle high workloads and achieve exceptional results.

As a dedicated team player, I am readily available to work on holidays and weekends to meet project deadlines and goals. My disciplined and punctual approach ensures I am a dedicated and reliable team member.

Experience

DevOps Engineer / Oracle DBA / Scrum Master

2020 – currently working here

ING Tech Poland / inghubspoland.com

My project at ING Hubs Poland is a Database as a Service offering within a private cloud. Our team provides and monitors Oracle Database services for various ING Bank units on Exadata systems. We also handle the automation of these processes using Ansible within an Azure DevOps environment.
