Summary

DevOps Engineer with an entrepreneur's DNA. I specialize in Azure, automation, and AI-integrated workflows, but my real strength is understanding the 'why' behind the tech.

I'm not just managing pipelines; I'm building infrastructure that supports organizational goals and long-term efficiency.

Current Role

DevOps Engineer / Oracle DBA / Scrum Master

[ING Hubs Poland](#) / 2020 – Present

- **Azure DevOps & Automation:** hands-on experience utilizing Azure Boards for agile management, Azure Repos for version control, and Pipeline automation to streamline CI/CD workflows.

- **Infrastructure as Code:** Leveraging Ansible within the Azure DevOps environment to automate processes for a private cloud Database as a Service (DBaaS) offering.

- **AI-Enhanced Workflow:** Actively utilizing AI assistants to optimize scripting, troubleshooting, and daily operations.
  - Deep understanding of AI fundamentals and the operational flow of modern AI technologies.
  - Proactively staying updated on the latest AI breakthroughs to implement innovative solutions.

- **Database Operations:** Providing and monitoring Oracle Database services on Exadata systems for various ING Bank units.

- **Agile Leadership:** Serving as a Scrum Master to facilitate team efficiency and ensure goal alignment.
