Quick learner. Team player.

Ready to work on holidays and weekends. Available 24/7.
Disciplined, punctual, without bad habits.

Experience

DevOps Engineer Oracle EMCC / Oracle DBA / Scrum Master
2020 – currently working here
ING Tech Poland / ingtechpoland.com

My project within ING Hubs Poland is Database as a Service within a Private Cloud. We provide Oracle Database service for ING Bank units.

Our team is responsible for monitoring Oracle Databases on Exadata. We are using Oracle Enterprise Manager Cloud Control.
We are responsible for the application part - EMCC, Weblogic, and Oracle Database repository (OMR). For process automation, we are using Azure DevOps (Pipelines).
From the start of my work in this role, we as a team - implemented two major upgrades of EMCC and DB, and discovered over five officially reported bugs to Oracle Support, automated almost all routine maintenance processes.
Skills I am using and pumping in this role:
• Provisioning and maintenance of Oracle EMCC, Weblogic, OMR, DataGuard, RMAN
• Provisioning and maintenance of Oracle EMCC host Agents
• Azure DevOps - Repos (Git), Pipelines (Ansible)

My personal goals are promotion from Middle to Senior grade and Employee of the Year award in 2021.

Oracle Database Administrator
2019 – 2020
IBM Poland / www.ibm.com

I started work in Oracle Technology with a technical base in network engineering.
In this position, I completed a series of courses in Oracle database administration and SQL scripts.
Participated in archiving and database migration. Serving Middleware Tier - Apache / JBoss / WebSphere.

Introduced several solutions to simplify the work of managing users and tables in the database, for export/import for communication in a team.

- administration of Oracle Database 11g, 12c, 19c
- import-export, SQL-queries
- RAC, Data Guard, ASM, RMAN
- Refreshing schema, database

- Table space Management, Space Management, Users Management, Roles & Privileges
- Oracle Exadata
- Oracle Cloud (Autonomous Databases)
- Tools & Utilities: DATAPUMP, RMAN, ASMCMD, SQL DEVELOPER, AWR, ADDM
- Operating Systems SA level: RHEL 7, CENTOS ⅞
- Bash Scripting
