Summary

Senior DevOps Engineer and Scrum Master with over 15 years of IT experience spanning infrastructure automation, database administration, and project management.

Expert in building highly automated CI/CD pipelines, optimizing private cloud DBaaS using Azure DevOps and Ansible, and driving agile delivery.

Combines deep technical expertise with an ownership mindset to align IT infrastructure with strategic business goals.

Current Role

DevOps Engineer / Oracle DBA / Scrum Master

[ING Hubs Poland](#) / 2020 – Present

- **Azure DevOps & Automation:** hands-on experience utilizing Azure Boards for agile management, Azure Repos for version control, and Pipeline automation to streamline CI/CD workflows.
- **Infrastructure as Code:** Automated DBaaS provisioning processes using Ansible and Azure DevOps, reducing environment deployment time by 70% and eliminating manual configuration errors.
- **AI-Enhanced Workflow:** Actively utilizing AI assistants to optimize scripting, troubleshooting, and daily operations.
 - Deep understanding of AI fundamentals and the operational flow of modern AI technologies.
 - Proactively staying updated on the latest AI breakthroughs to implement innovative solutions.
- **Database Operations:** Maintained 99.9% uptime for business-critical Oracle Database services on Exadata systems supporting multiple ING units by implementing proactive monitoring via Prometheus and Grafana
- **Agile Leadership:** Serving as a Scrum Master to facilitate team efficiency and ensure goal alignment.

Professional History

Oracle Database Administrator / [IBM Poland](#) / 2019 – 2020
